

Could a Polar Bear Survive in the Sahara?

LIFE SCIENCES

Get ready

The main part of the class takes place outside – plan a trip to a nearby park, forest or lake. The students observe vertebrates and catch invertebrates (which they should release after the class)

GET GOING

Observing: Animal characteristics

- ☒ **We provide:** Worksheet - animal characteristics – print out for each group
- ☐ 3 containers for catching animals for each group
- ☐ a net for catching insects/a butterfly net - for each group
